# TELESCOPIC LADDER & LEITERTEC- SYSTEM

The **Leitertec- system** for telescopic ladders has been specially developed for **safe use** on **sensitive surfaces**, especially motorhomes. The simple principle: the two suction cups can be inserted into the top of the rail **without the need for tools**. The **stability** achieved by the vacuum is comparable to that of a permanently attached ladder. In addition, the two large suction cups distribute the pressure evenly, **preventing scratches and pressure marks**.

The solution offered by Leitertec enables use in areas where conventional ladders fail.

After use, the system can be stored in the accompanying bag to save space and can be attached between the rungs of the ladder. This way, it is always protected and ready for immediate use. Technical features such as **air-cushioned retraction** and **color indicators** on each step enable **intuitive handling** with maximum safety. Larger rail diameters and **double the rail overlap** compared to most manufacturers result in less deflection – ensuring noticeably greater safety and a longer service life for the ladder.

The ladder is tested in accordance with European standards, approved for up to 150 kg, and also certified **for commercial use**. Leitertec promises the highest quality and direct, honest customer support.

**See for yourself the wide range of possibilities and feel free to contact us!**

*“I can finally clean the roof of my motorhome without worrying about slipping or scratching the paintwork. Pull out, put it on, done. Brilliant product.”*

*- Charlotte K.*

# APPLICATIONS

# AT A GLANCE

Finger pinch protection thanks to air-cushioned retraction

Tool-free installation of the Leitertec system

Special suction cups for sensitive surfaces

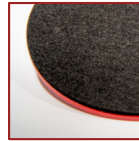

Approved according to European ladder standards

Engagement check via color indicators

Carrying bag for safe storage

Felt pads for rough contact surfaces

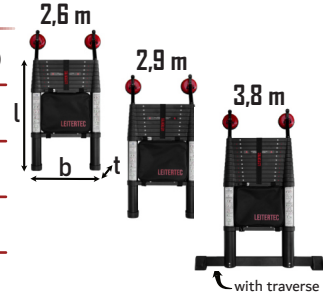

Non-slip bases

# PRODUCT DATA

## TELESCOPIC LADDER INCL. LEITERTEC-SYSTEM

	2,6 m LST260	2,9 m LST290	3,8 m LST380
article number			
dimensions ladder retracted l x b x t [cm]	74 x 46 x 7,2	77 x 47 x 7,8	90 x 86 x 10
dimensions ladder extended [m]	2,6	2,9	3,8
weight [kg]	7,5 + 1,9*	8,6 + 1,9*	13,3 + 1,9*
max. load weight [kg]	150	150	150
remarks	- intermediate heights in 30 cm steps adjustable - - ladder certified according to DIN-EN 131-6 -		

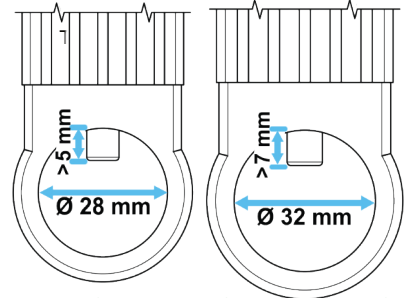

\*Leitertec- System 32 mm

## LEITERTEC-SYSTEM

	Ø28 mm LSY28	Ø32 mm LSY32
article number		
dimensions carrying case [cm]	36,5 x 29 x 12	36,5 x 29 x 12
weight [kg]	1,9	1,9
remarks	- System can be <b>retrofitted</b> to many telescopic ladders - - bag can be attached between the lowest steps -	

**Suitability criteria for retrofitting the Leitertec- system to ladders from other manufacturers**

round rail ✓ inside diameter ✓ spring pressure bolt ✓

## PRICES

	net price	gross price
Telescopic ladder <b>2,6 m</b> incl. Leitertec- System 32 mm	226,88 €	269,99 €
Telescopic ladder <b>2,9 m</b> incl. Leitertec- System 32 mm	243,69 €	289,99 €
Telescopic ladder <b>3,8 m</b> incl. Leitertec- System 32 mm	310,92 €	369,99 €
Leitertec- System <b>32 mm</b> incl. carrying case	100,83 €	119,99 €
Leitertec- System <b>28 mm</b> incl. carrying bag	100,83 €	119,99 €
